Multiple configurations:

- 2 x Storz B or C
  Option: third Storz B or C
- Stainless steel upper barrel
  Option: with Storz A
- Below ground DN 80 or DN 100
- Single or double shut-off
- With or without traffic break-away
  design

NEW
MULTI HYDRANT
MODEL N7

Expect … **AVK**

AVK MULTI HYDRANT MODEL N7

Various couplings
- 2 x Storz B or C
- Optional 3rd Storz B or C
- Optional Storz A on DN 100

With or without traffic break-away design

With traffic break-away design:
- Top and bottom body are connected by 4 hex socket head screws and bushes in stainless steel (optionally bushes in titanium)
- Bushing brakes at impact and top body knocks down
- Bushes and screws available as spare part kit, for easy repair after collision

Without traffic break-away design:
- Bushes in stainless steel according to standard for one-piece hydrants
- Hex head screws

Single or double shut-off mechanism

Optional ball shut-off:
- Completely rubberized ball sealing
- The ball is filled with a honey comb pattern for maximum durability
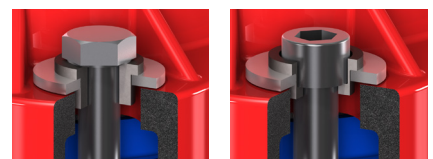

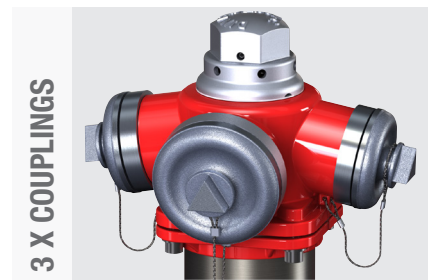

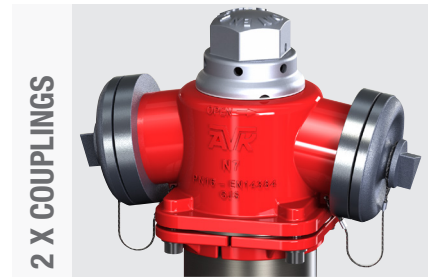

Design and materials
- Designed according to EN 14384 - CE approval 0620-CPR-6122
- Disc coated with abrasion resistant polyurethane for maximum memory effect
- Head of cast iron and upper barrel of stainless steel
- Hydrant head and lower barrel externally epoxy coated to DIN 30677-2 and AVK guidelines
  Hydrant head with a topcoat of UV resistant polyester coating
  Lower barrel internally enamelled to DIN 51178
- Below ground the renowned AVK model P7 design, DN 80 or DN 100

Drainage
- Drains the water when hydrant is in closed position
- Complete emptying. Below 22 ml of residual water

Flexdrain® drain packing
- Protection against sand, roots, stones and other impurities
- Ensures unblocked drainage at all times
- Ensures no flushing of surrounding soil
